Gateway to Complete
Ceramic Solution

Who We Are

In the modern age of compromises there's one product you can count on for uncompromising reliability. Established in 2006 , We At UNITED INDUSTRIES GROUP, have concentrated single mindedly on designing and developing Ceramic Tiles & sanitary wares products that will stand the test of intense usage day after day. making each product represent World Class Quality.

Our millions of customers of the 25 countries all around the world are the testimony of the fact that our products are built to last and give good usage year after year.

Started with Wall tiles in 2006 , We entered in Floor tiles & Sanitaryware as well and got the tremendous response from our customers all over. The company has shown a dramatic growth during the last few years because of its good quality product and aggressive marketing by experienced and knowledgeable team who is constantly working day and night for the growth of the company.

We also have our own fully equipped Research and Development department which ensure that the product design has not only aesthetic values but genuine application advantage as well,
